

## Technical Training Explained by Dr. W. G. Carpenter

### Emphasizes Advantages to Boys In Preparing for Work in Skilled Trades

Will technical training be established in Coleman schools? It has been under discussion for some time, and on Monday on the invitation of the Ministerial association Dr. Carpenter, head of the provincial school of Technology and Art addressed a public meeting. He explained that the present school system does not prepare boys for work in various trades into which the majority enter, leading up to the climax of his address by a carefully planned discourse on educational methods as practised for many years, and which were not suitable in preparing boys for mechanical and building trades.

The present system trained boys for so called white collar jobs, whereas only 25 per cent. could be absorbed into professional and office work. The remaining 75 per cent. became engaged in manual trades, and therefore require to be partly trained so that it will be eas-

## Baseball Games

Coleman Juniors defeated the all-star champions by a score of 16-1. On Wednesday evening Hillcrest seniors defeated Coleman juniors by a score of 4-3, Coleman leading 3-1 up to the seventh inning.

The tennis club held a very enjoyable dance on Wednesday evening in the Grand Union hotel.

ier for them to earn a living.

Many boys would not continue school because it held no interest for them, but by technical training much of value could be imparted.

Dr. Carpenter was given a vote of thanks at the close of his address, and Rev. A. S. Partington was chairman of the meeting.

On Tuesday night he met trustees of Blairmore, Bellevue and Frank, when the matter of establishing a system of teaching where by the Pass schools could benefit, was discussed.

Public opinion in Coleman appears to strongly favor the introduction of technical training, and the ministerial association has been active in interesting the people. It is expected further action will be taken by those who are enthusiastic for the scheme.

## Anglican Laymen in Macleod Deanery Form Association

### Will Prepare for Church Army Crusade in Southern Alberta During July

Representatives of the Anglican parishes of Macleod, Pincher Creek, Blairmore and Coleman, including laymen and clergy, met at St. Cyprian's Indian school, Brockton, on Wednesday, May 6, and formed the nucleus of an organization to be known as Macleod Deanery Laymen's Association.

Prominent visitors were Rt. Rev. L. Ralph Sherman, bishop of Calgary; Allan C. Fraser, president of Calgary Board of Trade, who is an active Anglican in St. Stephen's parish; Ven. Archdeacon Swanson of Lethbridge and Canon Merrick of Claresholme. Clergy from Macleod Deanery included Rev. Randall F. Powell, Rev. J. W. Jeffcott, Rev. A. S. Partington, and Rev. W. Barlow, principal of Brockton Indian school, who was the host.

The visitors were on arrival shown through the school by Mr. Barlow, and it was a surprise to most of them to find such a fine building, equipped with modern conveniences, with an up-to-date heating plant and a permanent water supply piped throughout the building from a running well. The initial cost of the building was \$85,000.

After a splendid supper provided by Mr. and Mrs. Barlow, for which a hearty vote of thanks was extended in happy vein by the Bishop, the meeting opened with Rev. Mr. Powell as chairman. Briefly explaining the object of the meeting, he called for an expression of opinion as to organizing, with the result that W. Cockram of Macleod was elected president, H. T. Halliwell of Coleman vice president and A. L. Watkins of Coleman secretary.

Addresses pertaining to the proposal under discussion were given by A. C. Fraser, Archdeacon Swanson, Bishop Sherman and Canon Merrick, while general discussion was joined in by most of the delegates.

It was decided that a representative of each parish should be given the responsibility of stimulating interest in the new association, and that a rally of laymen be held during June in Pincher Creek.

Captain Bewley, of the Church Army, who will conduct a crusade in this Deanery in July, addressed the delegates on his sphere of work and asked them to prepare for his campaign, so that the church as a whole may benefit from his visits. The meeting adjourned shortly after 11 p.m., after a stirring and helpful address by the bishop, in which he pointed the way to greater accomplishments in the church's spiritual life.

### ST. ALBAN'S CHURCH

Sunday after the Ascension. 11 a.m., Holy Communion and sermon.

2 p.m., Sunday School. 3 p.m., Adult Bible Class. All members of the Bible Class are asked to be present promptly at 3 p.m.

The Shamrock tag day relief committee, of which Mrs. Gueard is convener, intend putting on a dance in the Opera house on May 27, admission 50c. The proceeds will be used to augment the \$38.50 already collected, to be used for relief purposes. Confetti, novelties, noisemakers at the dance, commencing at 9.30 p.m.

## C.P.R. Service Curtailed

In its plan of bringing about reduction of expenses, the C.P.R. included Coleman with all other points in curtailing service. No ticket agent or operator is now on duty on Sunday, and people going on the trains from here can purchase their ticket on the train. Not even the lights on the station platform are turned on, there being no person on duty to attend to this, consequently it is most unpleasant for passengers to wait in complete darkness for the train. Postmaster Graham has put in a request for additional street lighting in the vicinity of the station, and it is very badly needed in such a prominent place, especially when the station lights are not turned on.

## Smoke as Thick as Fog

A pall of smoke drifted through the Pass on Thursday. It is reported to have been caused by three large barns in High River district having burned, which were filled with hay. Another report stated fire broke away from ties burning on the C.P.R. right-of-way near Burnis.

Forest Ranger Boulton warns those frequenting the woods to exercise the utmost care to prevent fires, and breaches of the law will incur heavy penalties.

On Sunday evening Ruth, young daughter of Mr. and Mrs. H. McLeod, was knocked down by an automobile driven by Frank Patterson, but was not seriously injured. Mr. Patterson avoided some others who were crossing the road, when the little girl ran from the sidewalk, and when he swerved to try to avoid hitting her she ran the same way as the car.

## TOWN OF COLEMAN

### Notice of Preparation of Assessment Roll, 1931

Notice is hereby given that the assessment roll of the Town of Coleman for the year 1931, has been prepared and is now open for inspection at the office of the secretary-treasurer of the town from ten o'clock in the forenoon to four o'clock in the afternoon on every day which is not a public holiday, except Saturday, and on that day from ten o'clock in the forenoon until two o'clock in the afternoon, and that any person who desires to object to the entry of his name or that of any other person upon the said roll or to the assessment of any property or to the extra assessed value placed upon any property, must within thirty days after the date of this notice lodge a complaint in writing with the secretary-treasurer of the town.

The Council adopted the assessment roll of year 1930, with regard to assessment value of land and improvements for the year 1931. No assessment slips will be issued only in cases of extra value added.

Dated this 14th day of May, 1931. JAMES FORD, Secretary-Treasurer.

## TOWN OF COLEMAN

### Re Stray Cattle

Owners of cattle of any description, horses, etc., are warned that if their animals are found running at large within the town limits, they will be subject to a fine, the minimum being \$5.00. No further warning will be given beyond this notice, so that those who turn cattle loose must see they are kept out of the town limits if they wish to avoid the penalty, which will be enforced without fear or favor.

By Order of the Council. Dated this 11th day of May, 1931.

## Garage and Car Destroyed

Fire was discovered at 8.20 this morning (Thursday) in N. Bortnick's garage at the rear of his store on Main street. In less than 15 minutes the building and a Pontiac car were destroyed. A. Sherratt, truck driver for Ledieu's store, and Frank Graham, ex-got the hose truck out two minutes after the alarm sounded, and it was five minutes by the time the hose was in action. Absence of wind fortunately saved other buildings from igniting. The delivery horse was standing a few feet from the blazing building, hitched to a light wagon. It was impossible to move it from the yard because of the intense heat, but the animal remained quiet during the excitement and trotted from the yard after the fire was extinguished. Prompt action by Sherratt and Graham was highly appreciated by property owners in the vicinity, whose property was endangered.

### St. Paul's United Church

Sunday, May 17th. Sunday School, 10 a.m. (note change of time).

Rev. J. Wood at 11 a.m. Rev. N. W. Whitmore, B. A., of Pincher Creek, at 7 p.m.

Shop where you are invited.

## Communists Vote Favors Affiliation With Unity League

### Pass Towns Give Majority of Three to One—Communists Will Control Union

By 294 to 144 Coleman mine workers voted in favor of affiliating the Mine Workers Union of Canada with the Workers Unity League, the Communist organization in Canada directed by the Third Internationale of Russia.

It will be a fight between those who adhere to the recognized labor organizations of Canada and those who are attempting to make the Russian system dominant.

It is not difficult to predict that despite the fight it is making, Communism will not thrive in Canada, for with a return of better times, much of the discontent on which Communism thrives will disappear.

Attend the play by Coleman Players at Blairmore, Friday night (May 15) "It Pays to Advertise!"

The baseball club will hold a dance in the Opera House on Monday, May 25th, which promises to be a humdinger, as the New Blairmore Orchestra has been engaged.

### Taking Canada's Census

The decennial task of "counting noses" in Canada, or, in other words, the enumeration of the census of the Canadian people, takes place in the month of June. It is a big and fairly expensive job requiring the services of a small army of men, and, after their initial work is completed, hundreds of clerks and expert statisticians will be engaged for months compiling, tabulating and analyzing the returns sent in to Ottawa by these thousands of enumerators.

The question may naturally arise in the minds of some people: Is it all worth while? Is such a large expense justified, especially in these times of declining revenues and enforced economies, merely to ascertain how much there are in Canada, and an array of facts relative to each individual?

There can be only one answer to such questions. It is very much worth while; in fact, it is vitally important. Just as it is of importance and value to a farmer to know how many bushels of grain he may have produced from a given number of acres; how many chickens he possesses; how many pounds of milk and cream his cows have produced; or to a business man how great his annual turnover has been, so is the collection of the census information of importance and value to the nation as a whole. It is a form of national stocktaking.

But that is not all. Under our Canadian system of government, and the relationships, financial and otherwise, which exist between the Federal and Provincial governments, population is an important factor. In many respects it is the all-important, the deciding factor.

First and foremost, the representation of people in Parliament is based on population. Let us illustrate: Suppose, for example, the census shows a population of 3,000,000 people in the Province of Quebec. Under the constitution those 3,000,000 people are entitled to 65 members in the House of Commons, that is, one member for each 46,154 people. Therefore, each group of 46,154 people in every other Province is entitled to a member. After each decennial census there is a redistribution of representation in the House of Commons based on the facts disclosed by the census. In this way the representation of all parts of the Dominion is made and kept uniform and equitable.

Furthermore, the financial relations between the Dominion and the Provinces is based on population. The Dominion pays cash grants to the Provinces of so much per head of population, and in the case of the three prairie provinces it pays increasing amounts annually as population increases until a certain maximum amount is reached. Unless there was a census-taking these amounts could not be accurately ascertained.

Again, only by knowing the population is it possible to arrive at such facts as the amount of the per capita debt, per capita taxation, volume of trade and commerce per capita, and a volume of other statistical matter upon which both national and Provincial policies of finance and taxation are founded.

While the enumerators are thus "counting noses" they are also gathering other important information. The wealth of the Dominion, its productive capacity, the social conditions of its people, their racial antecedents, the extent of their illiteracy, how many males and how many females, how many children, middle-aged, and aged people—information all having a bearing on future policies for the development and well-being of the Canadian nation.

This year, for the first time, complete information is to be obtained on the subject of unemployment—how many are out of work, the nature of their usual employment, what caused their state of unemployment, etc.,—all with a view to finding out the actual extent and causes of unemployment as a guide to finding out and applying the necessary remedies, and developing policies to prevent a recurrence of such an unsatisfactory and deplorable condition.

It will be seen, therefore, that the census-taking is a vitally important national undertaking. It is clearly the duty of every citizen to co-operate with and assist the census enumerator in his work. His questions should not be resented, but, on the contrary, should be welcomed and full information freely and gladly given to him. He will be discharging his duty, a national duty at that. In like manner the citizen will be discharging a national duty by extending every assistance in his power.

#### Nurse Leaves For Northland

Winnipeg Lady Will Remain In Far North For Five Years

Miss Prudence Hockin, of Winnipeg, formerly of Oak Lake, Manitoba, leaves shortly for Baffin's Bay as superintendent of a new Anglican hospital at Pangnirtung. She will make the trip to the far north by the Hudson's Bay boat leaving Montreal early in the summer, the only ship of the year to attempt the passage. It will take two months to complete the trip to Pangnirtung, and Miss Hockin has undertaken to remain in the mission hospital there for five years.

The radio has put the mission headquarters in touch with the outside world to the extent that radiograms are received there once a week. But none can be sent out. The population consists of 12 white people and shifting population of Eskimos.

Nothing worries some people like the absence of worry in others.

#### Easy Work For Blind

Profession Of Masseur Is Very Popular Among Sightless In Japan

The profession of the masseur is the one in which a blind person is the equal, if not superior, to persons with sight, W. McG. Eager, Secretary-General of the National Institute for the Blind, with offices in London, is at the world conference on work for the blind.

"I am surprised that in America the profession of masseur has not been more popular among the blind," Eager said. "In Japan almost all of the masseurs are blind. In fact, it has become so much a custom that the Japanese words for 'blind man' and 'masseur' are the same."

A new automobile has been constructed in London, England, for the Maharajah of Patiala, the glass enclosure of which enables the occupants to see out, but prevents outsiders seeing in.

### Heart and Nerves So Bad Was Unable To Sleep For Hours

Miss Theresa M. Ravary, Gallington, Ont., writes:—"I was troubled, for almost a year, with my heart and nerves, especially on retiring at night when I would be unable to sleep for hours. I was easily fatigued, and became very excitable and irritable. A friend recommended Milburn's Heart and Nerve Pills and after taking them for a few days I could enjoy a good night's rest, and rapidly regained my former state of health."

Price 50c a box

Sold at all drug and general stores, or mailed direct on receipt of price by The S. Milburn Co., Ltd., Toronto, Ont.

### Soviets Could Mobilize Large Army Quickly

National Leaders Have Made Provision For Any Emergency

Despite protests from the Soviet that the Russians are working for peace it is estimated that the nation could mobilize an army of 37,000,000 men within three months of the outbreak of war. Of these, some 10,000,000 would be members of the line regiments and provide a rifle strength of that number.

Within three weeks of the start, the Soviet is believed capable of throwing 8,000,000 fighting men into action. In addition, the national leaders have been concentrating on supplies, and they keep permanently in reserve enough coal to last three months. They are also building up the air wing of the fighting corps.

Besides tossing bushels of wheat on the world markets, the Soviet is evidently ready to throw in quite a supply of cannon fodder when the time comes.

### MOURNING WARDROBE

"A death occurred in our family and I had to go in mourning. I could hardly afford to buy all black clothes, so I decided to dye what I had. I consulted our druggist and he advised using Diamond Dyes. Everything came out beautifully: coats, wool dresses, stockings and all. I have since learned to appreciate the excellence of the black Diamond Dyes. I tried another black dye and the results were impossible. I had to get Diamond Dyes and do the work over. Besides, I had limited my curtains a beautiful raspberry shade and dyed a rug a lovely garnet with Diamond Dyes. They are real money savers—the finest dye money can buy—I truly believe."

Mrs. G. K. L., Montreal.

### Vimy Memorial

Major Newburn Will Endeavour To Hasten Completion Of Work

Maj.-General S. C. Newburn, of Hamilton, Ont., who sailed for Europe on the "Empress of France," will endeavour to hasten completion of the Vimy memorial while overseas, he said. Before the boat left, the officer, in referring to the memorial said:

"As chairman of the national battlefields commission, I am going to meet General Hughes, who is now in Europe, and one of the things I will do is try and expedite the completion of the Vimy memorial. The memorial was supposed to be finished next year, but I understand there has been some delay in receiving the stone and while I can say nothing officially, it is possible that the completion of the memorial will be somewhat later than expected."

Worms are encouraged by morbid conditions of the stomach and bowels, and so subside. Miller's Worm Powders will alter these conditions almost immediately and will sweep the worms away. No destructive parasite can live in contact with this medicine, which is not only a worm destroyer, but a health-giving medicine most beneficial to the young constitution.

#### Largest Fur Shipment

The largest single shipment of white fox pelts ever received in Winnipeg reached the city recently by Canadian National express. The shipment was transported from the shores of Hudson Bay over the Hudson Bay Railway. The shipment, which was valued independently of the large fur companies included 431 white fox pelts and a dozen red fox pelts, all of which were trapped in the high north during the past winter.

Nights Of Agony come in the train of asthma. The victim cannot lie down, and sleep is driven from his brain. What grateful relief is the immediate effect of Dr. J. D. Kellogg's Asthma Remedy. It banishes the frightful conditions, clears the passages, and enables the afflicted one to again sleep as soundly and restfully as a child. Insist on the genuine at your nearby druggist.

#### Record For Apple

Apples of any variety that cannot stay a week off the branch without rotting ought to blush in shame before the record of a clove apple in the possession of Mrs. Charles Hollins, Worcester, Mass. Plucked at Bridgewater 62 years ago and preserved, it is in as good condition as if just taken from a tree.

#### Market Low Grade Wheat

The Edmonton Chamber of Commerce has appointed a committee to prepare a report in connection with the development of an Eastern market for low grade Alberta wheat and coarse grain. The object will be to sell to Ontario and Quebec supplies of low grade grains for feeding purposes.

Denmark has only 179 miles of air service routes.

W. N. U. 1889

### How Women Lose Fat In England

How would you like to lose unhealthily fat that you don't need and don't want, and at the same time feel better than you have for years?

How would you like to lose your double chin and your too prominent abdomen, and at the same time make your skin so clean and clear that it will compel admiration?

How would you like to get your weight down to normal, and at the same time develop that urge for activity which makes work a pleasure, and also gain in ambition and keenness of mind?

Get on the scales to-day and see how much you weigh—then get a bottle of Kruschen Salt. Take one-half teaspoonful every morning in a glass of hot water, and when you have finished the first bottle weigh yourself again.

Now you will know the pleasant way to lose weight, and you will also know that the six vitalizing salts of Kruschen have presented you with glorious health.

That's the way Englishwomen keep slim—why not you?

### Does Not Include Churchill

British Engineer Will Not Survey Hudson Bay Port

The Port of Churchill will not be included in the survey to be conducted by Sir Alexander Gibb, noted British harbor engineer, Premier Bennett has announced in the House of Commons.

The Hudson Bay port was designed from recent plans, and the premier did not believe Sir Alexander Gibb should be forced to pass on plans designed by a "fellow engineer" from London.

Three of Sir Alexander Gibb's men are now in Ottawa, preparing preliminary data for his personal, the premier said, but he did not announce when the engineer, himself, would leave England. The survey will be confined to Halifax, Saint John, Quebec, Montreal and Vancouver.

### Recipes For This Week

(By Betty Barclay)

#### CORN RELISH SALAD

- 1 package lemon-flavored gelatine.
- 1 cup boiling water.
- ¾ cup cold water.
- 2 tablespoons vinegar.
- 1½ teaspoon salt.
- 1½ cups corn, cooked.
- 1 green pepper, chopped.
- 1 pimento, chopped.
- 1 tablespoon onion, grated.
- Dissolve gelatine in boiling water. Add cold water, vinegar, and salt. Chill. When slightly thickened, fold in corn, pepper, pimento, and onion. Turn into mold. Chill until firm. Unmold on crisp lettuce. Garnish with mayonnaise. Serves 8.

#### COCONUT CREAM PIE

- ¾ cup special cake flour, sifted.
- ¼ cup sugar.
- 1½ teaspoon salt.
- 2 cups milk, scalded.
- 2 egg yolks, well beaten.
- 1 cup coconut, southern style.
- 1 teaspoon vanilla.
- 1 baked 9-inch pie shell.
- 4 tablespoons sugar.
- 2 eggs with stiffly beaten.
- 1½ teaspoon vanilla.

Combine flour, sugar, and salt; add milk. Cook in double boiler until thickened, stirring constantly. Pour small amount of mixture over egg yolks, stirring vigorously. Return to double boiler and cook 10 minutes. Add coconut and vanilla. Cool and pour into pie shell. Fold sugar into egg whites; add vanilla. Pile lightly on coconut filling. Bake in oven (300 degrees Fahrenheit) 12 minutes, or until delicate brown.

Mothers Value This Oil.—Mothers who know how suddenly a croup may seize their children and how necessary prompt action is in applying relief, always keep at hand a supply of Dr. Thomas' Electric Oil, because experience has taught them that this is the best preparation for the treatment of this ailment. And they are wise, for its various uses render it a valuable medicine.

### Government Advertising Campaign

Large Sum Spent In Urging People To Buy Canadian-Made Goods

Total of \$92,000.77 was spent by the Dominion Government in the advertisements of the Department of Trade and Commerce which urged the people of Canada to buy Canadian-made goods. This sum had been spent since the present administration assumed office, according to a return tabled in the House of Commons.

The money was distributed among the newspapers of the country as follows: Dailies, \$38,923.48; farm papers, \$38,417.46; miscellaneous, \$13,876.88, and weeklies \$3,002.84.

Worms feed upon the vitality of children and endanger their lives. A simple and effective remedy is Mother Graves' Worm Extirminator.

### Study Economic Conditions

Urge Appointment Of A Permanent National Committee For This Purpose

Appointment of a permanent national committee to study all phases of social and economic conditions with a view of making plans to prevent recurring cycles of unemployment is urged on the Dominion government by a round-table conference on unemployment which met in Ottawa.

The conference, convened by the Canadian Council of Child Welfare, was representative of social welfare organizations in all parts of Canada. The recommendation was one of many contained in a report which was drawn up and presented to Hon. G. D. Robertson, minister of labor, for submission to the Dominion government. Senator Robertson attended the meeting, which brought the conference to a close. The report will be submitted to the provincial governments.

The proposed committee, it is suggested, would study the economic and social structure of Canada "with the purpose of pooling the best knowledge of governments, industrial, agricultural, and financial interests, social and health agencies, in evolving a more stabilized system of production and distribution and of supply and demand."

### Use Machine Guns

Toronto Police Force Being Trained To Handle Deadly Weapons

Detectives of the Toronto police department are being trained to handle machine guns if the occasion ever arises to use these deadly weapons, the Toronto Star says. Three guns that fire 1,000 rounds in a minute and bullets that travel 880 feet a second, are being experimented with by Inspector Robert Alexander, aide to Chief Draper, and officer in charge of training.

Officers of the motorcycle squad, the Star further says, are also taking part in the training which will be extended to other ranks after all detectives are thoroughly schooled.

Douglas' Egyptian Liniment should be in every household. Stops bleeding at once, cauterizes wounds and prevents blood poisoning. Keeps away inflammation and proud flesh.

The Bible contains two chapters, which are nearly alike, word for word. They are the nineteenth chapter of II Kings, and the thirty-seventh chapter of Isaiah.

... is a genial man, with an air of quiet strength that compels confidence. On his shoulders rests the responsibility for your safety.

Imbued with the finest traditions of British seamanship, he has spent his lifetime mastering the moods of the seven seas.

## HON. ROBT. WEIR REFERS TO CREDIT PLAN FOR WEST

Ottawa, Ont.—In a speech recording government achievements for agriculture since he took over that portfolio, Hon. Robert Weir, Minister of Agriculture, aroused the wild enthusiasm of Conservative supporters in the House of Commons. It was the minister's long-awaited maiden speech.

For weeks opposition members have been demanding that the government declare its agricultural policy. Finally, through the medium of an amendment to supply assuring the government failure to enunciate an agricultural policy, the opposition brought the demand to the floor. Mr. Weir, Minister of Agriculture, spoke to a crowded gallery and chamber, to Conservative benches which cheered him again and again, and to an opposition which protested at times the statements which he made.

The minister indicated that had been done since he assumed office rather than what he proposed to do. He told of steps taken to develop the British market for Canadian cattle; of negotiations with steamship lines and cattle men, and of a fair measure of success resulting therefrom.

He discussed the butter market, claiming that through the efforts of the government prices for the Canadian product had been kept up until a few weeks ago, when the market broke. The eighteen duty on importations under the British preference and verbal agreements with Australia and New Zealand had helped to hold the market, he claimed. The negotiations had resulted in an enable western farmers to obtain banking credit, were described. These had culminated in an offer of assistance by the Dominion Government. Mr. Weir asserted, "When the offer is known," he said, "I am sure honorable gentlemen opposite will blush for having discussed this question in the way they have done."

He realized, said Mr. Weir, that the policies which he had enunciated would not bring immediate relief to the farmer. He knew the load of mortgages and debt that the western farmer was carrying. He knew that it required immediate relief, but that load was not put on the farmer since last August, he reminded the House. The minister directed some scorching shots across the floor. He particularly singled out Hon. W. R. Motherwell, his predecessor in office, and Rt. Hon. Mackenzie King.

After the desk-tapping, clapping and cheering had subsided when Mr. Weir sat down, it was succeeded by an outburst from opposition benches as John Vallance, Liberal member for South Battleford, rose to reply. "After listening to the speech of the minister, I am convinced that he is a better politician than he is an agriculturist," asserted Mr. Vallance. "The most important matter for the western farmer today is markets for wheat, and the minister never touched on it."

Establishment of a 100 per cent. wheat pool, or the restoration of the Wheat Board was urged by Mr. Vallance.

In earlier debate, Dr. T. F. Donnelly, Liberal member for Wilton-Bunch, had criticized strongly the activities of Hon. G. Howard Ferguson, Canadian high commissioner to London, England, in connection with the Rome wheat conference.

Mr. Ferguson, he alleged, had succeeded in dividing buyers and sellers.

## Probe Mail Thefts

Series Of International Mail Robberies To Be Investigated

New York.—Postal authorities both here and in Great Britain began an investigation of a series of international mail robberies, the extent of which officials have not yet been able to determine.

A systematic rifling of letters, some containing remittances to persons in Ulster, Ireland, has been going on some time, it was learned recently. United States and British postal authorities have been pushing their investigation, co-operating by cable.

It is believed the mail has been robbed on the United States side and not after reaching England and Ireland.

## Boy Handit Escapes Lashes

Ottawa, Ont.—The 20 lashes to which Robert Klitowski, a Fort Frances boy slightly over 16 years, was sentenced have been remitted by order of the court, signed by the Governor-General, Klitowski, who robbed a bank, was sentenced by a police magistrate to five years and 20 lashes.

W. N. O. 1889

## Experts Will Attend Wheat Conference

Discussion At Canada House, London, England, Will Be Private

London, England.—All the wheat exporting nations of the world, including Soviet Russia, will be represented at the wheat conference opening on May 18, at Canada House here, under the chairmanship of Hon. G. Howard Ferguson, Canadian high commissioner to Great Britain.

The United States has already indicated it is sending three experts. Russian participation is assured. And the conference, an outgrowth of the world wheat conference at Rome, will be enabled to make a thorough study of the world wheat situation so far as it particularly concerns the exporting nations, preliminary to endeavors to reach agreement on some form of orderly marketing of the next wheat crop.

The conference is expected to last about a week and the discussions will be private.

Son's high commissioner—Hon. G. Howard Ferguson will represent this Dominion at the wheat conference to be convened in London, England, on May 18. The advisers who were present with Mr. Ferguson at the wheat conference in Rome will again act in the same capacity at the London wheat conference.

## Installed In Office

Alberta's Lieutenant-Governor Sworn In At Impressive Ceremony

Edmonton, Alberta.—On May 5, Hon. W. L. Walsh, former supreme court judge of the province, became Alberta's fourth lieutenant-governor since its creation in 1905. Successor to Hon. William Egbert, he was sworn into office at the legislative buildings here in an impressive and brilliant ceremony attended by the viceregal retinue, Alberta's judiciary and members of the legislature. Hon. Mr. Walsh took the oath of office administered by Hon. Horace Harvey, chief justice of the supreme court of the province.

A colorful gathering attended the swearing-in ceremony. Col. A. C. Gillespie, aide-de-camp, met the viceregal train at Milliet, and accompanied the new occupants of Government House to Edmonton. Civic officials, as well as provincial government heads and prominent judicial representatives, greeted the first citizen of Alberta and Edmonton on his arrival here.

## B.C. Cattle For Russia

Negotiations Opened Up For Purchase Of Pure Bred Stock

Vancouver, B.C.—It is understood that Soviet Russia may buy a number of purebred dairy cattle from British Columbia farms to strengthen the herds of Eastern Siberia. Negotiations were opened some months ago, and steps are now being taken to arrange the best means of handling them. They are to go from here to Japan, and will be transhipped from there either to Harbin or Vladivostok. It is understood that the first shipment will consist of 40 head.

Another movement of dairy stock from this province is that to Shanghai, and it is becoming a regular one. A dairy farm at Shanghai is taking about 10 head of good grade milkers monthly, and it is expected this will continue. It is in the nature of replacement, as mortality in the dairy herds at Shanghai is fairly heavy.

## Alberta Wheat Pool

Will Carry Out Its Usual Policies Says Henry Wise Wood

Calgary, Alberta.—The Alberta Wheat Pool will carry out its usual policies and members will be bound by contracts which they have signed, said Henry Wise Wood, chairman of the Alberta Pool, when informed that the Manitoba Wheat Pool will solicit the opinion of members as to whether they wish the privilege of selling their grain on the open market after June 1, through the Pool elevator system.

"Action by the Manitoba Pool has nothing whatever to do with our pool, and I might say that we intend to carry on in the future as we have done in the past," Mr. Wood declared.

## Heavy Fire Loss Last Year

Toronto, Ont.—Canada's property loss by fire in 1930 was more than \$46,000,000 according to figures supplied by the Dominion Fire Protection Association which held its annual meeting here on May 8. Number of lives lost during the year was 233.

## Reduced Wheat Acreage

Canberra, Australia.—Approximately 13,500,000 acres of land will be sown to wheat in Australia in the coming season, compared with 18,000,000 acres last year, the government states.

## Busy Times Ahead

Prophecy Is Made That Canada Will Soon Need Immigrants To Meet Demand For Workers

Toronto, Ont.—Prophecy that Canada would be needing immigrants to meet the demand for workers within two years, was made by Col. R. E. Smythe, director of the Technical Service Council, at the 10th annual convention here of the Ontario office superintendents of the Employment Service of Canada.

It was urged that a clause requiring that 75 per cent. of the help needed in construction of public works be secured through the Employment Service of Canada, should be included in government contracts. The Federal Government would be approached to ensure the inclusion of a clause to this effect.

It was resolved to request the department of labor to take additional steps to discourage importation requests and that the immigration department be asked to check carefully all skilled workers seeking admittance to Canada.

## Letters Seized

Letters Containing Irish Sweepstakes Tickets Stopped At Winnipeg

Winnipeg, Man.—Thousands of letters were seized at the Winnipeg post office because they were found to contain Irish sweepstakes tickets on the English Derby. The seizure was made under orders of the postmaster-general of Canada, as sweepstakes mail is illegal under Section 236 of the Criminal Code.

The postal staff here have seized numerous letters containing the tickets in the past week, but recent collection was the largest on record. The letters, disguised in various ways, will be returned to the dead letter office, Ottawa.

## WOULD EXTEND BRITISH TRADE WITH DOMINION

Ottawa, Ont.—"We are fully assured that there is a strong pro-British sentiment in Canada, and that the manufacturers in this country are willing to co-operate with English industrialists along lines that are complementary, and supplementary," Sir James Lithgow, president of the Federation of British Industries, said in an interview here. "We are fully conscious that there is over-production in the empire and throughout the world, for the relief of which British industrialists are willing to do their part, and we believe that there are openings and directions in which it is to Canada's advantage to present to buy in England."

Sir James is leading a trade delegation which has come to Canada upon the invitation of Hon. H. H. Stevens, Minister of Trade and Commerce, to study economic conditions and to discuss with the government and manufacturers of the Dominion ways and means of extending British trade in Canada. The other members of the delegation are Sir Arthur Duckham and Mel MacKenzie. They interviewed Mr. Stevens, but no statement was given out regarding the conference.

## HAPPY SCENES IN MADRID

One of dramatic scenes typical of celebrations that marked the fall of King Alfonso and the establishment of a Spanish republic. Riding on the shoulders of their colleagues in Madrid, these republicans are waving the new Spanish republic flag.

## EXILED TO SIBERIA

Mme. Vera Figner, famous Russian woman leader, who, at the age of 76, has been exiled to Siberia for her protests of flogging by Soviet of 40 women members of Socialist party. Under the czarist regime she was repeatedly flogged and imprisoned for her attitude toward existing order of things.

## Senate Craves Work

Lack Of Legislation Given As Reason For Slack Hours

Ottawa, Ont.—Restless because of inactivity, the Senate is searching for work. Since the present session opened, the Upper House has deliberated only about 10 hours altogether, because of lack of legislation originating in the House of Commons. Today, the Senate had an informal discussion on the aims and achievements of the League of Nations.

Rising at the conclusion of the informal debate, Senator John Lewis pointed to the lack of legislation to be considered by the Senate at the present time. It was generally supposed the Upper House acted as a "brake," he said, but he could see no reason why speed and direction of public thought could not be influenced also by the Senate.

## Leads In Wheat Production

States That Russia Is World's Leading Producer Of Wheat

Washington, D.C.—Russia again is the world's leading producer of wheat. Figures supporting that unsuspected and highly significant statement were expected to be released about May 20, by the United States Department of Agriculture.

It was said that Russian production for 1930 likely would be announced at 1,097,000,000 bushels, which is 246,000,000 bushels more than was produced by the United States—largest wheat producers since Russia left the export picture during the war.

## Children Had Long Journey

Winnipeg, Man.—A journey half way around the world, with another 24 hours to go, left three young Czech-Slovakians arriving in Winnipeg still undismayed. Anton, 9 years; Joseph, 8, and Helena, 5, travelling to their father, Anthony Lycka, at Coleman, Alberta, spent a jolly hour in the precincts of the Canadian Pacific station before continuing their journey westward.

## Eckener Will Meet

Wilkins In Arctic

Announces Plan To Start For North Pole In July

Friedrichshafen, Germany.—Dr. Hugo Eckener, master of the Graf Zeppelin, announced he will start for the North Pole in his big ship about the middle of July to meet Sir Hubert Wilkins, who is going up there in a submarine.

This attempt to make a contact with Sir Hubert at or near the pole, he said, should clarify the question as to whether the airship is the most appropriate means for landing polar expeditions near their destination, picking them up later and providing them with supplies during their stay in the Arctic.

The Zeppelin expedition is to be financed by William Randolph Hearst, whose newspapers also are backing the Wilkins voyage.

The Graf will carry 45 persons on the Arctic flight, including Lady Drummond Hay.

It will take along complete polar equipment, including sledges, boats and arctic clothing. The time of the start will depend on the progress of the Wilkins expedition.

## Ottawa Dismissals

Information Given Out Regarding Retirements Of Employees

Ottawa, Ont.—Of the 1,295 employees of the Department of the Interior, who have been retired or notified of retirement, 442 were permanent on the staff at Ottawa, and 136 temporary. In the outside service 591 were permanent and 136 temporary employees. This information was given to E. R. E. Cheverly (Liberal, Ottawa), in the House of Commons by Hon. T. G. Murphy, Minister of the Interior, in answer to a question.

The Dominion lands administration service loses the largest number of personnel, with 442 employees being retired, or notified of retirement, while the forestry service loses 436. A total of 116 will be dismissed from the surveys bureau.

## MANITOBA POOL MAY ADOPT A NEW SYSTEM

Winnipeg, Man.—Manitoba Wheat Pool members will be given the right to choose between pooling their grain voluntarily, or selling it on the open market, if proposals announced recently by Manitoba Pool directors are approved by members. If the proposals are adopted, they will come into force June 1, 1931.

Contained in a letter signed by President Colin H. Burnell and forwarded to all Pool members, the proposals will be discussed at special meetings of 94 Pool locals in Manitoba, to be held during the last week in May. Under the suggested changes, all open-market sales would be handled by Manitoba Pool Elevators.

Decision to pave the way for alteration of the principle of the Pool contract, should members so desire, was reached at a meeting of the board of directors at Winnipeg, May April 13, at which consideration was given to a directors' meeting. It was given to a resolution passed at the annual Pool delegates meeting last November, asking directors to call a 1931 summer meeting to consider the question of handling the 1931 crop.

If members of the Manitoba Pool approve the proposals — and it is expected that adoption will be unanimous — the grain handled by Manitoba Pool Elevators, Limited, will be "hedged" immediately on the futures market. "Hedging" is sale of grain on futures contract to guard against a price-drop. Decision to "hedge" grain would mark a drastic change in Pool policy, which has on basic principle spurned the use of "hedging."

Mr. Burnell lists the directors' proposals as follows:

- 1.—The pooling of grain to be placed on a purely voluntary basis.
- 2.—All grain now pooled to be sold through Manitoba Pool Elevators, Limited, on the open market.
- 3.—That the proposed changes be submitted to the 94 Pool locals at meetings which will be held in the last week of May, in order that every member may have an opportunity to become acquainted with them.
- 4.—That the plan come into force on June 1, 1931.

Every Pool member is urged in the Pool letter to attend his local meeting and give his personal support to this endeavor to carry co-operative marketing through a critical time.

## WHEAT PRICES THE MAIN CAUSE OF DEPRESSION

Ottawa, Ont.—Reduction in salaries of civil servants may be necessary during the present depression, suggested Senator J. J. Hughes of Prince Edward Island, speaking in the senate. The reduction should be general and include the governor-general as well as the lowest-paid office boy. The president and employees of the nationally-owned railway also should be included.

Hon. W. A. Buchanan, Alberta, said the one word indicative of Canadian conditions was "wheat." If wheat prices could be restored to normal rates, the solution of Canada's economic problems would be possible. The economic welfare of Canada depended upon the purchasing power of the Western farmers, and if steps were not taken to increase that power, conditions would become worse.

Irrigated lands in the West might be changed from wheat production to that of commodities not in competition with general agricultural production in the West, Senator Buchanan suggested. The sugar beet industry might be developed; canning factories established and an incentive given to the production of wool.

Under new laws which were found for Western coal, the mines would be closed permanently, Senator Buchanan predicted. The industry there was in as acute distress as in Nova Scotia, and the miners in Alberta during the past year averaged two days' work a week.

Second reading was given a government bill to appoint two additional directors for the Canadian National Railway.

## Film Studios For Canada

British Firm May Enter the Production Field Here

New York.—Possibility that the Gaumont-British Film Corporation, one of the largest motion picture organizations in Great Britain, might enter the production field in Canada, was seen in the statement by Arthur Lee, of the American-Anglo Corporation, that preliminary negotiations were under way which might lead to the establishment by Gaumont-British of studios at Windsor, Ont., and Victoria, B.C.

Under these negotiations were a very vague nature and might not come to anything, Mr. Lee said Gaumont-British this summer would make a determined effort to place more pictures in Canadian theatres. He said he would interview heads of Canadian theatrical syndicates within a few weeks with the object of securing increased distribution for Gaumont-British pictures.

Mr. Lee denied rumors that Gaumont-British entertained the idea of founding a theatre chain in Canada.

## For Uniform Auto Laws

Inter-Provincial Convention To Be Held At Ottawa This Month

Montreal, Que.—An inter-provincial convention will be held at Ottawa, May 20 and 21, where delegates of the roads departments of the various provinces will meet to discuss laws and means to obtain uniform laws regulating traffic on the highways of Canada, it was announced by Hon. J. E. Perreault, Minister of Roads, at the local provincial offices.

It was explained by the minister that because of the inter-provincial traffic on the roads connecting the different parts of the country, it had become urgent to harmonize the regulations of automobile traffic.

Some of the laws adopted at Quebec had been widely discussed in the other provinces, said Mr. Perreault, and it is hoped that when properly explained, they will be adopted by all.

## Establishment Of New Tariff Board Asked

Notice Of Resolution From Premier Bennett Appears On Order Paper

Ottawa, Ont.—Notice of a resolution calling for the appointment of the new tariff board appears on the order paper of the House of Commons in the name of Rt. Hon. R. B. Bennett, prime minister and minister of finance. The motion reads as follows:

"Resolved that it is expedient to bring in a measure for the appointment of a tariff board, to prescribe the constitution, functions and duties of the board, and to provide for the salary to be paid to its members, officers and employees of the board."

The resolution will form the basis for a bill to be introduced later.

## Pictures of World Cruise Shown Here

Scenes of Many Lands and Peoples  
Are Very Interesting  
—Appreciation Expressed

Mr. T. M. Burnett of Hillcrest last year enjoyed a world cruise on the S. S. Resolute, and took with him a moving picture camera with which he secured films of some of the highlights of the cruise. Scenes on the Mediterranean, Monte Carlo, Naples, Cairo, French Somaliland, Palestine, India, were included in seven of the films he showed to members of the Masonic Lodge and their ladies and friends last Thursday evening.

Particularly interesting were the scenes showing the pilgrims bathing in the Ganges in India. To die on the banks of the famous river, dirty though it is, is considered a privilege by the Hindoo, and even their dead are brought to the river, immersed, then taken out and burned, the ashes being scattered on the river. Thereby the native hopes to find his paradise, or be incarnated in the body of a cow.

"Jerusalem the Golden" may be sung of in hymns, but Mr. Burnett stated it was as dirty a city as one would see in a wide sphere of travel. A picture of the famous walling wall, said to be the only remaining part of King Solomon's temple, was shown, with Jews praying and making lamentations.

The pyramids were shown, with relatives of Mr. Burnett riding on camels, and another fine series of views was that of the famous Taj Mahal at Agra, reputed to be the finest architectural structure in the world, erected by an Indian prince to the memory of his wife.

Mr. Burnett will show the balance of the films at a later date.

On the conclusion of last Thursday's showing, he was accorded a hearty vote of thanks for his kindness to the people here in showing the pictures.

The electric eye installed in the town offices is an interesting thing. It controls the street lights. As darkness advances the electric eye switches on the current, and in the morning as daylight appears it switches them off. Mayor Moores anticipates that it will reduce the cost of street lighting by eliminating waste. Now all that is required is a device that will switch them off on moonlight nights, or give wandering cows, tomcats and other prowlers of the night a shock they will long remember.

Gerald D. Brophy, district passenger agent, and Ronald Green, steamships passenger agent, C. P. R., were visitors on business at Fernie and Coleman.

## AN OPPORTUNITY TO HOLDERS OF EARLY MATURING CANADIAN GOVERNMENT BONDS TO EXTEND THE TERM OF THEIR INVESTMENT IN THE PREMIER SECURITY IN CANADA

## GOVERNMENT OF THE DOMINION OF CANADA 1931 CONVERSION LOAN

*The Minister of Finance of the Dominion of Canada offers to holders of the undernoted Dominion issues the privilege of exchanging their bonds into longer dated issues, in the following terms and under the following conditions:*

*This offer allows to holders of bonds eligible for conversion, the same interest payment and tax-free privileges, for the life of and as contained in the present bonds, and the opportunity of extending the term of the investment at 4½% per annum.*

**WAR LOAN 5% BONDS MATURING 1st OCTOBER, 1931**—Holders of these bonds have the privilege of exchanging into bonds maturing 1st November, 1936, bearing interest from 1st April, 1931. The first coupon will be for six months' *tax-free* interest at the rate of 5% per annum payable 1st October, 1931; the second coupon will be for seven months' interest at the rate of 4½% per annum payable 1st May, 1932; thereafter to maturity interest will be payable half-yearly at 4½% per annum.

**RENEWAL LOAN 5½% BONDS MATURING 1st NOVEMBER, 1932**—Holders of these bonds have the privilege of exchanging into bonds maturing 1st November, 1937, bearing 4½% interest payable half-yearly from 1st May, 1931. There will also be attached to these bonds three adjustment-coupons payable respectively on 1st November, 1931, and 1st May and November, 1932, for additional interest at the rate of 1% per annum.

**VICTORY LOAN 5¼% BONDS MATURING 1st NOVEMBER, 1933**—Holders of these bonds have the privilege of exchanging into bonds maturing 1st November, 1938, bearing 4½% interest payable half-yearly from 1st May, 1931. The first five interest coupons, being those to and including 1st November, 1933, will be *tax-free*. There will also be attached to these bonds five *tax-free* adjustment-coupons payable respectively on 1st November, 1931, and 1st May and November, 1932 and 1933, for additional interest at the rate of 1% per annum.

**VICTORY LOAN 5¼% BONDS MATURING 1st NOVEMBER, 1934**—Holders of these bonds have the privilege of exchanging into bonds maturing 1st November, 1939, bearing 4½% interest payable half-yearly from 1st May, 1931. There will also be attached to these bonds seven adjustment-coupons payable respectively on 1st November, 1931, and 1st May and November, 1932, 1933 and 1934, for additional interest at the rate of 1% per annum.

*Conversion applications in the terms of the foregoing are invited to a total of \$250,000,000. The Minister of Finance reserves, however, the right to increase or decrease this amount at his discretion.*

*Subscriptions will be received and receipts issued by any branch in Canada of any Chartered Bank and by recognized Canadian Bond Dealers and Stock Brokers, from whom may be obtained application forms and copies of the official prospectus containing complete details of the loan. Applications will not be valid on forms other than those printed by the King's Printer.*

*The subscription lists to the foregoing will open on 11th May, 1931, and will close on or before 23rd May, 1931, at the discretion of the Minister of Finance.*

## Western Students Receive Post Graduate Scholarships Awarded By National Research Council

The post-graduate scholarships awarded by the National Research Council for this year were announced recently. The scholarships total in value \$33,600, and have been awarded to 55 students. There are five fellowships for which \$1,000 each are given, 24 studentships each carrying with it \$750, and 26 bursaries, to the value of \$600 each.

The students obtaining the scholarships, the University of Graduation and the Department of Science in which award will be held include:

H. D. Smith, British Columbia, physics.  
Studentships—Awarded in Western Canada: J. M. Armstrong, Saskatchewan, genetics; Miles M. H. Campbell, British Columbia, zoology; E. C. Hallock, British Columbia, cellulose chemistry; R. N. H. Haslam, Saskatchewan, physics; M. K. McPhail, British Columbia, biochemistry; F. L. Munro, British Columbia, physical chemistry; F. H. Nicoll, Saskatchewan, physics; H. R. Sallans, Saskatchewan, organic chemistry; C. A. Winkler, Manitoba, physical chemistry.

Bursaries, awarded in Western Canada: J. F. Caley, Alberta, geology; K. R. Gray, British Columbia, organic chemistry; G. A. Harcourt, Alberta, geology; Miss J. F. L. Hart, British Columbia, zoology; O. J. Johansson, Saskatchewan, chemistry; N. B. Koevli, Saskatchewan, chemistry; H. B. Marshall, British Columbia, organic chemistry; J. H. L. Truscott, Saskatchewan, plant pathology.

A statement accompanying the results declared:

"Selection of the successful candidates from the total of 166 who applied was made at the regular meeting of the council in March, but pending receipt of acceptances, public announcement was delayed. Rather than reduce the number of awards available, the council reduced their value. These have been offered to the candidates selected and acknowledgments have now been received.

"It is the opinion of the council that students to whom awards have now been made will be able to continue their work satisfactorily in spite of the reduction in value which has been made necessary this year by the reduction in the fund made available by the council for this purpose.

"Because of recent statements indicating that a certain amount of the reduction in value which has been made necessary this year by the reduction in the fund made available by the council for this purpose.

### Starting Cross Canada Trip

Party From Hamilton Hopes To Reach Vancouver In December

May 2 was moving day for E. Wharton Shaw, of Hamilton, Ont., who hopes to make the first motor crossing of Canada by an all-Canadian route. His heavy truck was christened in the waters of the Atlantic and set out on its journey to Vancouver.

Mr. Shaw is accompanied by his daughter, Phyllis, and Mechanic Harold Puxon. At Hearst, Ont., a companion will be picked up.

The truck carries a tractor which will be used as assistance in negotiating the bad lands west of Hearst, and several pontoons, to be made into a raft for crossing unbridged rivers.

The party expects to reach Vancouver in December.

"What a lovely fur coat. How much did it cost you?"  
"Three fits of hysteria."—Hummel, Hamberg.

W. N. U. 1889

## France Buying More Wheat From Canada

Report Shows Outlook For Future Sales Is Good

In the first two months of 1931 Canada exported to France nearly twice as much wheat as during the months of November and December of last year and seven times as much as during the first two months of 1930. This information was contained in a statement prepared for Hon. H. H. Stevens, Minister of Trade and Commerce, by Hercules Barre, Canadian-government trade commissioner in France. This indicates a serious effort on the part of France to fulfill the promise made to Premier R. B. Bennett, when the prime minister and Mr. Stevens visited France after the Imperial conference, the report declares.

For the three months following the unofficial agreement between France and Canada, French imports of Canadian wheat have amounted to 6,482,174 bushels, an increase of 2,430,000 bushels over the three previous months.

While Canada has been selling more wheat to France, the imports from other countries have not kept pace. In January and February of 1930, Canada supplied 17 per cent. of France's total imports of wheat whereas in the first two months of 1931 she supplied 54 per cent.

That the outlook for future sales is good is indicated in the report. The domestic stocks of wheat in France of sufficient specific weight are decreasing steadily, requiring more and more the use of wheat of high gluten content for mixing. "As this condition is becoming more marked," the report states, "there is naturally a greater demand among millers for Manitoba wheat, which is generally considered as most effective for strengthening purposes."

### Bee Battalions Fly

Huge Stores Of Honey Now Being Accumulated By Busy Workers

With the arrival of the bright sunny days of spring and early summer and the wealth of bloom new growth brings, the bee battalions, resume their annual work of storing honey. Canada's annual honey crop ranges into millions of pounds gathered in at apiaries located throughout the entire Dominion. We all know that the proverbial busy bee sets a commendable example, and that huge stores of honey accumulate in the healthy hive. A better appreciation of the magnitude of the task which is the bees' in building up their stores, is afforded by figures just released by the Bee Division of the Dominion Department of Agriculture. As the result of a series of studies conducted over a period of five years it has been found by weighing hives that an average of 31,000 bees per hive wing their busy way in search of sweet nectar from day to day during the height of the season.

### British Egg Market

Britain Imports 4,640,000 Dozen Eggs Per Week

In the current issue of the foreign egg market report the Poultry Division of the Dominion Department of Agriculture indicates that Great Britain at the present time is importing upwards of 4,640,000 dozen eggs per week. Denmark, the Netherlands and Poland are the largest contributors to this huge volume of exports; other countries include the Irish Free State, Belgium, Finland, France, Germany, Italy, Sweden, China, and Egypt. Canada is not, at the present time, listed as a consigning country although a market which imports such huge quantities of eggs should hold something of opportunity for Canadian producers.

**Redoubt Fight For Water**  
The Herald's Jerusalem correspondent says that more than 80 persons were killed or wounded in a fierce fight between Redoubt and others for water around a desert well, the exact location of which was not determined. The natives, suffering from thirst because of drought, had travelled long distances to the well.

**World's Largest Seed Tester**  
Declared to be the largest in the world, the Swedish Seed seed testing station was recently inaugurated by the country's crown prince. It also is said to be the most modern in every particular. Last year 108,127 analyses were made by Sweden's seed testing department.

Many market fairs are being held in Argentina this year.

## The Short and the Long of It

John Griffiths, diminutive Liverpool boy with ambition, signed on the Canadian Pacific liner "Duchess of Richmond" as a "bellyboy" and made his first voyage on that liner when she opened St. Lawrence navigation for 1931 by reaching Montreal, Sunday, April 19th. John is 15, four feet and half an inch tall, and is looked upon as a mascot by the ship's company. With him is John Kane, Master-At-Arms of the "Duchess of Richmond," who is the tallest man on the ship stands six feet two inches above the deck.

## FASHION

No. 829—For Sunday Nights. This style is designed in sizes 14, 16, 18, 20, 22, 24 and 26 inches bust measure. Size 36 requires 3½ yards of 39-inch material with ¾ yard of 32-inch contrasting.

No. 727—Extremely Flattering. This style is designed in sizes 16, 18, 20, 22, 24 and 26 inches bust measure. Size 36 requires 3½ yards of 39-inch material.

No. 257—Slenderizing Model. This style is designed in sizes 36, 38, 40, 42, 44 and 46 inches bust measure. Size 36 requires 3½ yards of 39-inch material with ¾ yard of 35-inch contrasting.

No. 245—Attractive Model. This style is designed in sizes 8, 10, 12 and 14 years. Size 8 requires 2½ yards of 39-inch material with ¾ yard of 39-inch contrasting and 1 yard of ribbon.

No. 239—New Sweater Suit. This style is designed in sizes 4, 6, 8 and 10 years. Size 4 requires 1½ yards of 35-inch material for over-dress and trousers with 1½ yards of 35-inch material for blouse, 4½ yards of binding and ¾ yard of 35-inch lining.

Our large Fashion Magazine shows the latest Paris styles for Spring and Summer for adults and children. Price of book 15 cents. All patterns 25 cents in stamps or coin (coin preferred). Wrap coin carefully.

## A National Air Tour Of Over Seven Thousand Miles Will Be Held This Summer.

### Good Prices For Export Cattle

Movement Of Live Cattle To Great Britain On Profitable Basis

Cabots were received by Hon. Robert Weir, Minister of Agriculture, giving the prices received for the latest shipment of cattle to Britain. These are sufficiently high to make the movement of live cattle from Canada to the United Kingdom one of great possibilities.

At the same time British Co-operative Association representatives who have recently toured Canada, have undertaken, subject to ratification by their directors, to take 75 Canadian cattle a week for 12 weeks, in order to decide the feasibility of a steady flow of 400 head weekly for the "Co-Op's" trade in Britain.

On the shipment for which the prices were made known, one carload of finished cattle from Calgary will net the shipper back in Alberta over \$5.65 per hundredweight. Another carload, also from Alberta, will not the shipper over \$6.00 per hundredweight.

With these prices known, a meeting of shipping representatives from Montreal has been arranged with Mr. Weir, to take place here, Monday, May 4, to canvass the number of cattle ready for shipment and the ocean space available. The present is an opportune time to ship cattle to the United Kingdom as Irish fat cattle are practically off the market for the next two or three months.

### Signaling the progress of aviation

In the Dominion, a national air tour will this summer be carried out by the Canadian Flying Clubs' Association, assisted by the Aviation League of Canada. From the standpoint of the mileage to be covered and the number of aeroplanes taking part, the tour will be the greatest ever undertaken in any part of the world, said G. M. Ross, secretary of the Canadian Flying Clubs' Association, in making the announcement at Ottawa.

Occupying two months, the air pageant will visit every city in Canada where there are flying clubs affiliated with the association. A minimum of 25 machines, in a variety of types entered by manufacturers, distributors, commercial operators and private owners will take part in a journey of some 7,500 miles.

Date of the commencement of the flights and the itinerary will be announced in the near future, Mr. Ross said.

It is expected the National Defence Department will officially sanction participation by Royal Canadian Air Force pilots. The association hopes through the tour to foster interest in the construction of municipal airports and to encourage wider use of air mail services. Flying exhibitions will be staged in conjunction with local flying clubs at various points.

### Soliciting Business In British West Indies

Vancouver Woman Has Been Encountered With Difficult Task

A woman has been chosen to find a market for the surplus oats production of the Fraser Valley, in British Columbia. She is Miss Elsie Bridges, manager of the export department of a Vancouver grain company, and she is on her way to the British West Indies to see what can be done about drumming up business in that territory.

Every year the Fraser Valley ships about 3,000 tons of oats to the West Indies, where the grain is used as feed for cattle working on sugar plantations. Miss Bridges will have stiff competition from German and Dutch salesmen, who have been taking a lot of business. "But," says the manager of the grain company, "Bridges will win. She is that sort of woman."

### Heavy Tourist Traffic Forecast

Reports Indicate Good Business For West Says C.P.R. Official

Heavy tourist traffic for Western Canada this summer is confidently expected by the Canadian Pacific Railway, according to C. B. Foster, of Montreal, passenger traffic manager, who with H. R. Mathewson, general passenger agent, Winnipeg, has been on one of his regular semi-annual trips to the Pacific coast.

"There will not be so much European tourist trade from North America this year as in previous years," Mr. Foster said. "That, however, will result in more money being spent in Canada. Our reports from all parts of the continent indicate that there is no doubt about this."

### May Visit Russia

Rt. Hon. David Lloyd George, the Liberal chief minister, may visit Russia in September. Mr. Lloyd George is said to be greatly interested in the Russian five-year plan and wants to make a first-hand investigation. Once before he proposed a Russian trip and the Soviet Government offered him every opportunity to make inquiries.

Indian men and women made perfume from wild bergamot and other fragrant plants, using it to scent their clothing.

"I gave a man an old suit and he then asked me for three shillings."

"What for?"

"To get the suit disinfected."

—Buen Humor, Madrid.

### Will Travel In Modern Way

Dalal Lama, Of Tibet, Has Ordered Motor Car

Departing from all the traditions of his country and faith, His Holiness the Dalai Lama, ecclesiastical king of Tibet, has ordered an automobile sent to him at Lhasa, high in the Himalayas.

A newly trained Chinese chauffeur will pilot the car where routes are navigable, but where no roads exist, parties of 30 coolies each will be posted along the mountain passes and on the desolate Tibetan plateau to carry it in relays to its destination.

Heretofore, all automobiles have been dubbed "devil wagons" by highly superstitious Tibetans.

### No Longer Used

It is worth noting that the Governor-General in addressing the Mayor of Ottawa, spoke of him as "Mr. Mayor." He did not call him "Your Worshipship." Apparently the latter form of address is no longer used in England, where people have ceased to worship municipal dignitaries.

A noiseless airplane is planned by a British engineer.

## LUMBAGO?

A pain in the lower part of your back can torture you. But not for long, if you know about Aspirin! These harmless, pleasant tablets take away the misery of lumbago, rheumatism, neuralgia, headaches, toothaches, and systemic pains of women. Relief comes promptly; is complete. Genuine Aspirin cannot depress the heart. Look for the Bayer cross, thus:

(Made in Canada)

## WORLD HAPPENINGS BRIEFLY TOLD

The engagement of Princess Ileana to Archduke Anton de Bourbon, was announced at Bucharest.

The national council reconvened at Agora and unanimously re-elected Mustafa Kemal president of Turkey.

A little girl 11 years old arrived in Toronto, after travelling all the way from Zawydzka, Ukraina, to be reunited to her father, George Hume.

Canada led all the countries of the world in trade with the United States during the month of March, in respect to both exports and imports.

Direct telephone communication between Great Britain and Canada, and Great Britain and New Zealand, using the beam wireless system, will shortly be put into effect.

Approximately 13,500,000 acres of land will be sown to wheat in Australia in the coming season, compared with 18,000,000 acres last year, the government states.

The new Arts Building of the University of Manitoba is now under construction and will cost about \$410,000. It will be built of Manitoba's native tapestry limestone.

Mrs. Edward Montagu, who started on a 6,000 mile flight through Russia and Persia, ceased her venture when her plane crashed and burned at Meshed, Persia.

Rev. Hon. J. H. Thomas announced that British representatives would attend the Imperial Conference at Ottawa with co-operation with the Dominions as their aim.

A verdict of accidental death was recorded by the coroner at the resumption of an inquest into the death of 48 persons in the wreck of the dirigible R-101.

### To Detect Intoxication

Chemical Detection Invented By University Professor

A chemical detector of intoxication has been invented by Dr. Rollo N. Harger, of Indiana University. It makes possible an unerring detection of intoxication by taking a sample of the human breath and subjecting it to simple chemical tests. The device may serve police authorities to convict persons of delinquency; cars under the influence of liquor; if there is alcohol in the breath the solution changes color from red to white even when the breath has no odor of alcohol.

### Canada's Census

Canada's census this year will reveal a population of more than 10,000,000 for the first time in the history of the Dominion. E. A. MacPhail, chief of the Division of Census and Vital Statistics, forecast while in Winnipeg recently.

LYN, MASS., U.S.A.  
and Cologny, Switz., Canada.

W. N. U. 1889

### The Newest Invention

Device For Counting Words Written On Typewriter Has Been Patented

One might think there is nothing left to invent, but according to Popular Science Monthly, a firm in Hartford, Conn., has taken out papers patenting a counting device for a typewriter. By this device a person knows how many words have been written. Counting words, or estimating them, has always been a problem. A good many city editors have told reporters they would take 500 words on a certain story, and the reporter has simply had to guess at it by knowing the number of words he can put on a sheet.

It might be quite a help in checking too much wordage in editorials, too. The writer would gaze now and then on that little counting device and it would warn him to quit, and editorial writers are often in need of such admonition.

The field is still open for such a contraption to be fastened to the jaw of public speakers.

### Depends On Electricity

California Man Uses It Exclusively For Drying Fruit

One enterprising fruit grower in the fertile Santa Clara Valley of California has replaced "Old Sol" with electricity. Prunes, apricots and walnuts grown on his ranch are dried in two electric dehydrators 24 hours a day, instead of less than half that time previously. The dehydrators produce a uniform output with less work and without the problem of sudden changes in weather.

The prune-apricot dehydrator is long and square with trays that hold about 3,000 pounds of fruit. The walnut drier is a large cylinder with a capacity of 2,000 pounds. In each, the electric heat is evenly distributed by means of fans. The walnuts after being electrically hulled and washed are kept in the drier for a period of from 24 to 70 hours under a temperature of from 90 to 110 degrees.

### Good Business For Canada

If Loan Proposal Meets With Anything Like Success

In an editorial on the Canadian Government's conversion project, the London Financial Times, England, says the varying nature of the bonds to which the offer is applicable prevents any close estimation of the saving likely to be made, but will certainly be several million dollars per annum if the issue is attended with anything like success.

The Financial Times adds that the outcome of the impending operations will also give some indication of the manner in which the public in the Dominion view future prospects, and thus provide a guide for dealing with the balance of the loans concerned.

### Central Heating Plant

The Northern Public Service Corporation and the Winnipeg Heating Co., have purchased a site for their new central heating plant, and work will commence soon. The cost of the plant is estimated at \$1,500,000. It will provide employment for 1,000 men.

## FASHION

### New Cunard Liner

Seventy-Three Thousand Ton Vessel Being Built in Scotland For Trans-Atlantic Travel

Practically the whole world will take some part or other in the construction of the new 73,000-ton Cunard liner at present being built at the yards of the John Brown Company, Clydebank, Scotland.

This liner, which when finished will be the finest liner ever constructed for trans-Atlantic travel, is the result of four years' intensive planning on the part of the best marine minds that could be brought together.

For several years before the ship was ordered, intricate tests were carried out in the laboratories of John Brown and Company, for which models—exact replicas of the new Cunard—were constructed. These models were placed in specially-designed tanks and submitted to every condition of wave and wind that might possibly be encountered on the Atlantic Ocean.

When the final model was approved and the plans for the docking facilities completed at Southampton, work was commenced in the same yards in which the world famous "Aquitania" was constructed.

Right across the Clyde from where the new Cunard is being built is the River Cart. It will be necessary to cut a very large part of the bank of the river away as well as deepen it, as the launching of such a large vessel is without precedent; launching is a great deal of care in the working out of the problems of committing the giant vessel to the water.

This recalls to mind the great care and attention which was paid to the launching of the "Aquitania" when she was launched on the Clyde, and at that event it was found expedient to make a large cut in the bank of the river to allow for the ship to be launched.

The household equipment for this new "Queen of the Seas" will include 300,000 pieces of silver, 2,000,000 pieces of china, pottery and glass, and an incredible quantity of linen and furnishings of every conceivable kind.

Indications at present point to a launching early in 1932—considerably in advance of the date originally set last year when the order was given to John Brown and Company.

The first opportunity that the general public will have to view the construction of this new Cunard will be when the yards of John Brown and Company are opened for public inspection during Glasgow Week, and preparations are being made for thousands of visitors to be taken care of who are anxious to get a glimpse of this ocean giant in the making.

Reduction of railway fares in the Philippines is forcing bus lines to merge.

### SUNDAY SCHOOL LESSON

MAY 17

### JESUS ENTERS JERUSALEM AS KING

Golden Text: "He is Lord of lords, and King of kings."—Revelation 17, 14.

Lesson: Luke 19:28 to 20:47.

Devotional Reading: Psalm 24.

### Explanations and Comments

**Preparations For Christ's Triumphant Entry, 19:28-35.**—And when he had thus spoken (his account follows immediately the giving of the "Parable of the Pounds"), Jesus went before His disciples on their way to Jerusalem. "The Jerusalem road is no Aspin way lined with the tombs of dead gallantries; it is no macadam road running through the hills and over the moorland to the city or the sea. It is rather the direction of desire, a purpose pursued, a quest adopted, a conquest won. It reveals the Christ of the sacrificial purpose."

In the triumphal entry was deliberately attempted, it was Jesus' last appeal to the people to accept Him as the kind of King He was. He would exhaust the possibilities of the situation, though He could not have expected to turn the people's mind away from the kind of King they wanted—an earthly rather than a spiritual sovereign.

In a neighborhood of Bethany and Bethphage, on the Mount of Olives, He sent two of His disciples to a nearby village to secure for Him a colt that had never been ridden, they would find tied there. In case the owner objected, they were only to say, "The Lord hath need of him." These words may have been the password which Jesus had arranged with the owner of the colt.

From John 12:1 we know that he had stopped at the house of Bethany, when He would have had time to make such an arrangement. An ordinary beast of burden would have been suitable for a distinguished rider, whereas the ass that had never carried any one met the requirements. It all happened in just that way—the colt was found, the question of the owner and the answer of the disciples were given, and the latter returned to Jesus with the colt.

By choosing an ass to ride upon, Jesus plainly showed the people that He was not to be thought of as a military leader, for the horse was used in warfare, while the ass was the fitting animal for the Prince of Peace. The people threw garments on the ass, and Jesus sat upon it, and upon the roadway to make a carpeted passage for Him, all to honor Jesus as King, just as in our day Californians have strewn the roadway with flowers to honor a President.

The King's Royal Progress, 19:38-38.—As they went down the Mount of Olives toward the city, the joyous crowd shouted and praised God for all the mighty works which they had seen, and cried "Blessed is the King who cometh in the name of the Lord." Compare Isaiah 62:1; Zechariah 9:9; Psalm 118:26.

"Peace in heaven and glory in the highest," they sang. These words were taken from Psalm 118, the Messianic Psalm. "Why peace in heaven? Perhaps they meant that peace in heaven was prophetic of that peace He was bringing to earth, that He was the Unconquerable One, before whom all enemies would lay down their arms without daring to fight." R. C. Gille.

A large elephant will consume from 100 to 125 pounds of hay a day, besides the mash which is also given.

The custom of reserving seats in theatres was followed in ancient Greece.

Mr. and Mrs. Barringham, Mrs. Nash and Mrs. Lonsbury motored to Lethbridge to visit friends on Tuesday last, and Mrs. Lonsbury went on to Granum to visit her daughter, Mrs. Easton.

F. M. Thompson Co. Ltd. announce the opening of the Spring and Summer season with a showing of smart dresses and coats. Mr. Palmer of Heath & Co., Calgary, will be at the store in Blairmore on Friday and Saturday, May 15 16.

Jimmy Fraser came home from Lacombe, to qualify for residence clause on Coleman hockey team, and Jimmy Evans is home for the summer from the coast, where he has been playing professional hockey for several seasons.

Mr. Toomes of Western Sales Book Co. Ltd., Calgary and Winnipeg, was in town on Thursday, and appointed Thos Holstead as local agent. Orders for counter check books may be given to Mr. Holstead, and will be filled at Winnipeg factory prices.

Maclean's Magazine of May 15 publishes a very informative article on Communism in Canada. It explains how the system is organized in Canada, and of the activities directed by Soviet officials. The article will serve a good purpose. It will enlighten the public as to the undermining influences which would tear down the national fabric by revolution, and make every man a serf of the state. Buy a copy of Maclean's at McBurney's drug store.

Steve Janak was injured in October, being knocked down by a car driven by George W. Goodwin on Blairmore road. Action was instituted in the supreme court at Macleod for a considerable sum as damages. It is reported that Janak was offered \$1,000 in settlement prior to the hearing of the case, but was not accepted. The action was dismissed by Mr. Justice Ives, with costs against the plaintiff. Major R. F. Barnes appeared for defendant and J. E. Gillis, K. C., for the plaintiff.

Citizens will be called on during June to answer many questions. People living in towns and cities have only 40 questions to answer. Those living on farms have 254 questions to answer, and there is also a form for the census of animals, animal products, fruits, etc. not on farms, on which there are 52 questions to be answered. The census-takers for town are Mrs. L. C. Grant and Mrs. R. M. Dunlop. For outlying portions of town there are other appointees. The co-operation of citizens is asked to expedite the work of the census officials. All questions must be answered, and those taking the census are sworn to secrecy. Help the census takers by giving prompt and correct replies to all questions.

Mr. and Mrs. Walter S. Purvis left on Thursday for Calgary, whence they will proceed to Regina, from which place Mr. Purvis will cover Saskatchewan as representative for International Coal & Coke Co. Ltd.

A. M. Morrison and W. L. Rippon attended the gathering of the dealer-managers association of General Motors Corporation held in the Palliser, Calgary. L. L. Morgan of Crown's Nest Pass Motors, Blairmore, was in for his firm.

## Buy The New HI-SPEED Firestone TIRES

Here's the greatest achievement in the building since Balloon tires were introduced—the new Hi-Speed Firestone Gum-Dipped tires built for today's fast speeds and quick stopping brakes. In no other tire can you find these advantages—

- 1-Gum-Dipped construction gives 25% to 40% longer life
- 2-New Double Cord Breaker insures against punctures and blowouts
- 3-Non-Skid tread for safety and quietness
- 4-Balanced built for high speeds

Firestone Hi-Speed Tires give you extra strength—extra mileage—extra safety—at the lowest prices in tire history. Buy your set today. See the nearest Firestone Dealer.
